

Mitigation/ Adaptation: Before and After

TWO SIDES TO THE SAME COIN

What is Mitigation?

A human intervention to **reduce** the sources of greenhouse gases (GHGs) . . .

Photo: LA Times

What is Mitigation?

or human intervention to **enhance** the sinks of greenhouse gases (GHGs). (IPCC definition)

Photo: Allfeaturesgreatandsmall.blogspot.com

What is Adaptation

The process of adjustment to actual or expected climate and its effects. In human systems, **adaptation** seeks to moderate harm or exploit beneficial opportunities. (IPCC definition)

adaptation

mitigation
